

WORKFORCE INNOVATIONS FOR A NEW NEVADA
 WORKFORCE DEVELOPMENT PROGRAM SUMMARY

Agency	Great Basin College
Program Name <i>(Complete a summary for each program)</i>	Diesel Technology Ely Expansion
Contact <i>Include Name, Phone and Email</i>	Bret Murphy, Dean of Business and Technology 775-753-2217 bret.murphy@gbcnv.edu
Program Description <i>Briefly describe training program components. Highlight length of program and access or mobility features that would be of interest to an employer.</i>	The training program incorporates everything industry has expressed as needs and expectations of a highly trained diesel technician: equipment and vehicle maintenance, electrical theory, hydraulics, welding, troubleshooting and more. While the program is new to the Ely area, it is modeled after the long-standing (24 years) diesel technician program at the Elko campus. The program is also open to both HS applicants and community members not in high school, and the 36-week format allows for expedited training to fill workforce needs.
Outcomes <i>Please identify specific industry-recognized credentials and/or degrees that result from program completion.</i>	Students have the option to pursue a Certificate of Achievement (55.5 credits) or a full Associate of Applied Science degree (69.5 credits).
Accepting New Partners & Students	Yes
