

WORKFORCE INNOVATIONS FOR A NEW NEVADA
 WORKFORCE DEVELOPMENT PROGRAM SUMMARY

| | |
|--|--|
| Agency | University of Nevada, Las Vegas School of Nursing |
| Program Name <i>(Complete a summary for each program)</i> | Genetics, Genomics, and Genetic Counseling |
| Contact <i>Include Name, Phone and Email</i> | Carolyn E. Sabo, EdD, MSN, RN 702-895-3342 Carolyn.Sabo@unlv.edu |
| Program Description <i>Briefly describe training program components. Highlight length of program and access or mobility features that would be of interest to an employer.</i> | <p>This online course is designed to give nursing students an introduction to Genetics, Genomics, and Genetic Counseling. The course will provide exposure to content found in programs specifically created certification eligibility in these areas and aid the exploration of the diseases processes that are a result of genetic mutations or abnormalities. A primary goal of this course is to determine if these fields of study are of interest to you as you continue your professional development.</p> <p>The program is intended to be completed in an online format with competency evaluations at the end of each module prior to advancement to the next module. Depending on the percentage of enhancement links to the program the participant accesses, the program can be completed in 30-40 contact hours.</p> |
| Outcomes <i>Please identify specific industry-recognized credentials and/or degrees that result from program completion.</i> | Participants completing the program will receive a certificate of completion. Continuing education units (CEUs) have been approved by the Nevada State Board of Nursing for relicensure applications. |
| Accepting New Partners & Students | This program was funded to serve a closed cohort, but the training is available outside of this project funding. Contact UNLV to get more information. |
