

Dear Valued Members of the Nevada Business Community,

In this difficult time, The Nevada Governor's Office of Economic Development (GOED) understands that the coronavirus outbreak is causing disruptions for some businesses that have been approved for State economic development programs, including GOED's tax abatement programs.

GOED is currently reviewing procedures and policies related to all of its economic development programs and will issue program specific guidance regarding this. Additionally, GOED will work with businesses to understand impacts the coronavirus has had on operations. Please know that our office will continue to work and engage with you as a part of Nevada's growing economy.

In the interim, businesses are encouraged to continue all appropriate responses to ensure the health and safety of their employees and customers.

If you have a question regarding an economic development support program -related coronavirus matter, please contact Melanie Sheldon, Director of Business Development (8am-5pm PST) at 702 486 2702 or msheldon@diversifynevada.com
