Nevada Transferable Tax Credit Program Application - EXHIBIT #2

The production of Easy's Waltz will bring substantial value to the state of Nevada through increased commerce, employment, and tourism. Chiefly, it will increase commerce through a several million dollar in-state spend directly out of the film's budget. This will in turn support local businesses and encourage other Hollywood films to come to Nevada and utilize their services in the future. It will also provide up to 50 local cast and crew members with employment for five weeks at competitive industry rates.

Tourism will also be bolstered through the presence of iconic celebrities spending time in the state, namely Al Pacino and Vince Vaughn. Additionally, the content of the film itself advertises the glamorous nature of Las Vegas shows, making the movie's audience more likely to visit the state of Nevada.

We are partnering with the Wynn Casino who will promote their branded resorts in the film, raising awareness for those who are considering a visit to the Vegas strip. Marketing for the film will center around the draw of the city's bustling entertainment industry, highlighting that the film is a love letter to the city and its workers. Given the film is projected to attract a wide distribution deal both nationally and internationally, the exposure for Nevada will be far-reaching and provide great value to its tourism industry.
