- The target date for the physical move is November 15, 2018 with operations to commence shortly thereafter.

**PROFILE**

Redwood Materials, Inc. is a company that uses sustainable processes to recover technology materials from post-consumer and post-industrial electronics. Redwood Materials, Inc. was founded in 2017 by a team of engineers and scientists who saw the growing problem of electronic waste ending up in landfills, and the need for expanding the infrastructure for processing this waste, in a sustainable manner, into useful materials for the technology industry. With the long-term decrease in ownership cycles for consumer electronics, this problem is only expected to grow. The Redwood Materials, Inc. team set out to solve this problem by developing new chemical, metallurgical, and mechanical technologies for recovering materials from electronics, and deploying these technologies in high-tech processing facilities. In addition, Redwood Materials, Inc. is exploring applications in related industries that have a long history in Nevada, such as mining. The company's current operations consist of three major functions: 1) procurement of feedstock, including different types of post-consumer and post-industrial electronics, 2) primary processing of those technology materials, and 3) marketing those new materials to specialty refiners. For procurement, the company partners with electronics collectors and aggregators. These companies deal directly with post-consumer and post-industrial sources, and perform dis-assembly, categorization, and packaging based on Redwood's specifications. The company's team includes engineers and scientists with decades of experience in electronic waste processing technology, as well as corporate support staff. *Source: Redwood Materials, Inc.*

**SIGNIFICANCE OF ABATEMENTS IN THE COMPANY'S DECISION TO RELOCATE/EXPAND**

Redwood Materials, Inc. currently has its sole facility in California. The decision to expand operations into Carson City was due to several factors, including the business tax structure, availability of a qualified workforce, cost of living and logistic advantages offered by the region. In addition, Redwood Materials is aware of the benefits of the State Incentive Program, and this also was a critical factor in deciding to expand its processing operations to Carson City. *Source: Redwood Materials, Inc.*

Mr. Paul Anderson  
Executive Director  
Governor's Office of Economic Development  
555 E. Washington Ave., Suite 5400  
Las Vegas, NV 89101

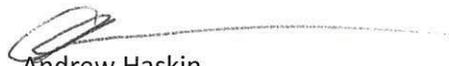

Dear Mr. Anderson,

Northern Nevada Development Authority (NNDA) is pleased to provide this letter in support of Redwood Materials' application for the Sales & Use Tax Abatement, Modified Business Tax Abatement, and Personal Property Tax Abatement, as stated on the attached incentives application.

We have reviewed the application submitted by Redwood Materials and we are working with them in support of their efforts to locate a manufacturing facility in Carson City, Nevada. The company intends to invest over \$3.8 Million in capital equipment and add 31 new jobs with an average wage of \$27.42 per hour.

NNDA respectfully requests this application be considered by the Governor's Office of Economic Development and be placed on the November 15, 2018 agenda for review and action.

Best Regards,

Andrew Haskin  
Director of Business Development  
Northern Nevada Development Authority

Paul Anderson  
Executive Director  
Nevada Governor's Office of Economic Development  
808 West Nye Lane  
Carson City, NV 89703

Dear Director Anderson:

Redwood Materials, Inc. is a company that uses sustainable processes to recover technology materials from post-consumer and post-industrial electronics. The Appendix to this letter provides a brief corporate profile that describes the company's background and operations.

Redwood plans to expand from its current location in California to Carson City, Nevada. We plan to hire and train employees from the local northern Nevada area, and begin producing new commodity materials at our Carson City facility. The target date for the physical move is November 15, 2018 with operations to commence shortly thereafter.

Redwood Materials currently has its sole facility in California. The decision to expand our operations into Carson City was due to several factors, including the business tax structure, availability of a qualified workforce, cost of living and logistic advantages offered by the region. In addition, Redwood Materials is aware of the benefits of the State Incentive Program, and this also was a critical factor in deciding to expand our processing operations to Carson City.

The expansion plan to Carson City involves the purchase and installation of several new pieces of processing equipment, which requires hiring additional engineers and technical staff. In order to staff and operate our operations, the plan is to hire a total of 31 employees over the first two years of operations. The average hourly rate of the employees is projected to be \$27.42.

We are excited about the market opportunities presented by this expansion and the advantages that locating this facility in Carson City will offer our company. In conjunction with Nevada's business-friendly environment, we see this as a first step in what will be increased growth for Redwood Materials.

Sincerely,

*Andrew Stevenson*
