

HEALTHCARE & BIOTECH

Where Health Meets Innovation.

- Home to four medical schools - a launchpad for international medtech, specialty pharma firms entering the U.S., and a growing innovation ecosystem in Las Vegas and Reno
- Nevada's rapidly growing population and major hospital expansions are increasing demand for healthcare services and specialized talent
- SB-5 (\$60M) approved to attract specialized oncology partners and build cancer treatment infrastructure statewide
- \$900M Rural Health Transformation Program investing in public-private partnerships to revitalize rural healthcare, workforce, and innovation
- Nevada entering its 8th round of Graduate Medical Education Residency Expansion to address physician shortages
- HCA Sarah Cannon (2025) -cutting-edge stem cell transplants and advanced cancer therapies now available in Nevada
- Intermountain Health + Shriners Children's - strategic partnership to open Nevada's first stand-alone Children's Hospital
- Kaiser Permanente + Renown Health - joint venture in Northern Nevada creating a more integrated, patient-centered health plan

Highlighted Projects

- **UNLV Kirk Kerkorian School of Medicine** - state-of-the-art clinical training and research infrastructure
- **Roseman Bioventures** - 120,000 sq ft biosciences incubation hub for biotechnology converted from Nevada's premier wet lab
- **Black Fire Innovation (UNLV)** - home to tech development and early-stage startups driving disruptive healthcare and hospitality innovation
- **UNLV Sports Innovation Institute** - hosts annual SEICon with Syracuse University showcasing sports, entertainment, and human performance innovation
- **Biotech Vegas** - nonprofit coalition driving infrastructure development, business attraction, and advocacy to strengthen Nevada's healthcare sector

NEVADA.

Where Innovation Meets Opportunity.

COMPETITIVE TAX CLIMATE

- Nevada is known for its exceptional business climate

STRATEGIC LOCATION

- Situated in the heart of the Western U.S., Nevada neighbors the 5th largest economy in the world
- Less than a day's drive to five major U.S. ports serving the Pacific Rim
- Convenient access to key interstates offering efficient and direct routes to major cities and destinations nationwide

BUSINESS FRIENDLY-IT'S IN OUR DNA

- Streamlined regulations
- Low taxes-no corporate or personal income tax
- Supportive ecosystem for entrepreneurs, startups and corporations

SKILLED WORKFORCE

- With a track record of adapting to market shifts and embracing innovation, Nevada's workforce consistently meets evolving industry demands, driving economic growth and sustainability

UNIQUE ADVANTAGE

- Nevada is the only U.S. state that encompasses every facet of the lithium battery economy and life cycle, making it the only location in the world with a complete lithium supply chain
